

June 8<sup>th</sup>. 2006

Dear Friends,

One more year has passed through and summertime (for many of you) is coming; it is time for vacations, relax and heat waves. Concerning me, one more winter has been added to my life... actually I have two winters a year, since every December I fly to Spain... it is so good to me because the heat and myself don't go along very well, but Carmen became allergic to cold, and we never were aware that this thing can happen... well, these are anecdotes of a missionary family.

We want to send you some pictures and briefly let you all know how things are going on here. Last May was a very complicated month concerning the security in the country, with many robberies and kidnappings, but thanks God we are always living in His security and victory; us and the volunteers coming from Spain. By the way, they all are excellent people and are doing very well.

Here they are: Eli from Jaén, Yolanda from Mollet, Yanina from Orense, Hazael from Tarragona, Eva from Barcelona and María from Madrid. Behind them is the Upper Room, where us and Maruja from Nuevos Pasos are taking care of them.

As you may know, their staying with us and of those who will come, are due to Project Peru, a project that DEMADE in partnership with Nuevos Pasos has started here to help us in the developing of our task.

## **Home**

We has been coming through a season in which one and another of the children of our Home got to go to he Hospital. But, thanks God, everything is almost normal now. Only Juan, who went into surgery due a serious condition in his kidneys, is passing through a slow recovery process, and we are expecting, God´s Will, it will end soon.

The Home keeps going on along with the tutors and the substitute parents, who due to their good work and the support of overseas, are achieving to improve the children in School and spiritually as well. As you know, these children came to us facing serious situations.

Good news! Nuevos Pasos is growing... but in a very "natural" way by now... Two couples of tutors already have birth babies, and other two are within the last weeks before birthing. Elizabeth, my secretary, who is Ronald´s wife, has just have a baby. Ruth, who is a helper in the Wawa Wasi already has a baby girl, and our volunteers: Cesia and Sara who are waiting a boy each.

## **Construction**

We are still in the Constrution Project, however, last week we stopped due a lack of funds for the second building. But the first building is already finished and we are waiting for the time o built a provisional room made of wood which would be used as kitchen and dining room to make possible for us to move out there. By now, the part of the building that is already in construction (from the second building) has been fenced to avoid the contact between the construction workers the children when they finally arrive there.

Concerning Crops & Animals´Raising, we already have over 20 ducks. Estamos avanzando con el área agropecuaria, ya tenemos una veintena de patos. next week we will start with chicken and the orchard is producing spinach, raddish, lettuce, corn, etc. We also planted fruit trees.

Crops & Animals

The Children's rooms are finished, just small details will be completed.

## Feeding Places

Is such a joy to be able to give over 120 meals and the truth is that in spite the fact that working with children is not always easy, we can see results step by step. By now we have been re- inforced by the volunteers from Spain and prediodical Schools for parents This is one of the areas that moves the hearts of those involved with it. We just expect all of you who faithfully pray and give can share the same joy than us.

### **PRAYER REQUESTS.**

Before we finish these updates, we want you to join us in believing and in proclaiming the victory of Jesus for the following:

**For the Children of the Workshops Of Life: For protection and that the Holy Ghost breaks any devilish bondage upon them.**

**For the volunteers of Nuevos Pasos, that they may prosper and never got weary**

**For the construction project and the ministry, that God continues to meet every needing.**

**For Nuevos pasos – Spain, that they may be an instrument of God for the Children.**

**For our family, for God´s protection and for wisdom and revelation from God.**

**Thank you all for yourhelo and for your prayers. We got all of you in our hearts.**

**Always yours.**

**el Family**
