

Hello friends!

Greetings from Bolivia, we want first of all to thank God for your help and prayers for us. 2020 was a complex year, but we have seen God's faithfulness and how He has cared for both us and the Nuevos Pasos team.

In the month of December, we were able to deliver toys and aid to the dining room and kindergarten at Nuevos Pasos Bolivia.

*Here in the photo, my wife with the mayor of Santa Cruz delivering the Christmas food baskets to the families of the children's dining room in Bolivia.*

The kindergarten, which has benefited 48 children this year, was also able to provide the toys that we delivered for Christmas and the food baskets for the families.

**NUTRIR LA VIDA:** As some of you know, one of our projects is to take care of the nutrition of children and families, and give comfort to the families of the cancer hospital through the Nutrir la vida program. We send you some photos of the last activity we had with them:

## **(January) Nuevos Pasos Perú.**

Finally, after more than a year, we were able to travel to Peru to visit and coordinate the work that Nuevos Pasos does there. We are happy with the work of the current board of directors.

In the first photo my son and I appear upon arrival at the Trujillo offices, in the middle one we are with the girls from the orphanage and the one on the right pointing to the building we need to build to continue improving and expanding for our work

We continue to work tirelessly, helping families with medical, nutritional or spiritual needs, bringing them a message of hope in these difficult times, working with children at risk that has increased due to this pandemic in both countries (Peru and Bolivia).

### **Bel family.**

We are fine, the Lord is leading us to expand the work of prevention of sexual abuse (AVISA) to other countries, we are praying that God will show us the way. On the other hand, Carmen, my wife had to travel to Spain to take the medical tests that she has to do periodically for her medical control. Aïda our daughter went with her to start her MIR and make her her medical specialty, we pray for her so that her classes are not postponed due to COVID.

### **Reasons for Prayer.**

**We need you to accompany us in prayer.**

**For Nuevos Pasos and its extension to other countries.**

**For God protect the Nuevos Pasos team.**

**For provision and strategies for our family and ministry.**

**For volunteers and missionaries for Bolivia.**

I If you want to support us financially, you can do it

by contacting us through email ([joanbelmartin@gmail.com](mailto:joanbelmartin@gmail.com)) or WhatsApp (+591 77152069).

Thank you
